Mark takes care of it for you!

Devices can be regulated and controlled in various ways. Each individual will have his own ideas and requirements. Mark has thus developed a range of options from standard to projectspecific.

Our range includes various types of thermostats, speed controllers, packaged digital controllers and full custom made power and control panels, enabling the user to control a single unit or multiple units.

Mark has its own electrical engineering and manufacturing department and is therefore able to offer a solution for any control requirement. Our engineers would be pleased to advise you. Simply contact them to discuss the options within our range of control equipment.

Our assortment includes:

- Full range of thermostats and sensors
- Time controls
- Digital time and temperature controllers
- Speed controllers including variable speed drives (VSD)
- Custom-made power and control panels

New in our range are the thermostats and controllers controlled via Internet (web-based). This allows remote connection with the thermostat via a web browser or mobile app. For example, you can operate or change the thermostat anywhere in the world with a telephone, tablet or laptop / PC.

230V Room thermostat

Order code: 0629013

Specifications:

A room thermostat for 1 to 1 control of a device based on room temperature.

- Required temperature adjustable from 10...30°C.

- Switch contact voltage free max. 4A / 230V.

Clock thermostat RAMSES 811 top3

Order code: 0629039

A digital clock thermostat for 1 to 1 control of a device based on room temperature.

Specifications:

- Language can be set to English, German, Dutch,
 French, Italian or Spanish.
- NO contact, voltage free max. 10A(2)/250V~
- Temperature measurement range 0...50°C increments of 0.1°C.
- Temperature setting range 2...30°C in stages from 0.2°C.
- 3 control programmes, freely programmable with
- 40 memory points.
- Comfort, Eco/Reduction, Frost protection
- Automatic switching between summer/winter.
- Protection class IP40 in accordance with EN 60529
 -1.
- 2x alkaline batteries, 1.5V, type AA.
- Power back up when battery replaced 10 minutes.
- Holiday program with a separate setpoint
- Setting various parameters using Ramses top 3
 Application Communication via Bluetooth

Can be used for:

- G-TYPE
- Tanner MDA (230V)
- Tanner MDE
- Tanner MDC (230V)
- MDV Blue AC
- Ecofan P
- Fohn
- 5-position controller 230V
- High/low/off controller

Can be used for:

- Tanner MDA
- Tanner MDE
- Tanner MBA
- 5-position controller 230V
- High/low/off controller

Order code: 0629004

Water resistant (IP65) room thermostat with adjustable differential. Measures the temperature using a sensor filled with liquid connected to the thermostat with a capillary.

Specifications:

- Bulb sensor filled with liquid.
- Adjustment range from -5...+28°C.
- Differential adjustable from 2...8K.
- Material protection class and resistant to splashing in accordance with IP65.
- Switching power 230V~, 15(8)A.

- Tanner MDE
- Tanner MDA
- Tanner MDC
- Tanner MBA
- 5-position controller 230V
- High/low/off controller

Zone control infra

Mark PinTherm Connect

Mark PinTherm Infra Connect

Order code: 3003795

VEB-BASED 🔲 🔲 🗋

Order code: 0629108

The PinTherm Connect is a digital week clock room thermostat. The controller is equipped with an on/ off contact and a 0-10VDC output. Both signals are reversible, so the control is suitable for heating and cooling. The settings of the thermostat can be read and/or modified with Modbus or Ethernet. The thermostat can be connected to the BMS (building management system).

Specifications:

- Power PinTherm Connect: 230Vac / 50Hz
- Own consumption: < 9W
- Clock: 24 hour clock with automatic summer/winter time switching
- Switching programs: 3 switching programs a day
- Switching differential: 0,1 3K
- Dimensions: 166 x 160 x 106mm (bxwxh)
- Weight: 880 grams
- Protection class: IP54
- Installation environment:
- Transport/storage: -20°C until +70°C Operational: -10°C until +60°C
- Relative air humidity: 0-90% not condensating
- Switch contact(s)
- Heating: 230Vac/16A (4A)
- Others: 230Vac/10A (2,5A)
- Temperature setting: 0 until 39°C per 1°C adjustable
- Overtime timer: adjustable 1. 2 or 3 hours
- (060, 120, 180)
- Calibration: adjustable from -3.5°C until +3.5°C
- Heating/cooling:
- Reversible contact for heating or cooling
- 0-10 VDC output for heating or cooling
- Languages: NI /EN/DE/ER/PI /RO/LT
- Fuse 6A

Can be used for:

- G-Type
- Tanner MDA / MDC / MBA
- LDA Swirl
- Ecofan W
- MDV Blue
- Fohn

Accessories:

- External room temperature sensor Order code: 0629086

Order code: 0629109

The PinTherm Infra Connect is a digital room thermostat to switch an Infra on/off or control high/low or modulating based on room temperature. The settings of the thermostat can be read and/or modified with Modbus or Ethernet. The thermostat can be connected to the BMS (building management system).

Specifications:

- Power PinTherm Infra Connect : 230Vac / 50Hz
- Own consumption: < 9W
- Clock : 24 hour clock with automatic summer/ winter time switching
- Switching programs : 3 switching programs a day
- Switching differential: 1°C
- Dimensions: 166 x 160 x 106mm (bxwxh)
- Weight: 880 grams
- Protection class: IP-54
- Installation environment : Transport/storage: -20°C until +70°C Operational: -10°C until +60°C
- Relative air humidity: 0-90% not condensating Switch contact(s)
- Heating: 230Vac/16A (4A) Others: 230Vac/10A (2,5A)
- Temperature setting : 0 until 39°C per 1°C adiustable
- Overtime timer : adjustable 1, 2 or 3 hours (060, 120, 180)
- Calibration : adjustable from -3.5°C until +3.5°C
- High/low switching: Temperature 1K, 2K, 3K or manual, PinTherm Infra Connect always starts 20 min on high a heat demand.
- Languages : NL/EN/DE/FR/PL/RO/LT
- Fuse: 6A

Can be used for:

- Infra on/off and high/low model.
- Infra Mono on/off and high/low model.
- Infra HT
- Infra Line
- Tanner MDE

Accessories:

- External black bulb sensor
- Order code: 0629087
- External room temperature sensor
- Order code: 0629086

Digital temperature control suitable to on/off, high/

low or modulated control multiple Infra's based on

room temperature. With the ability for area control

- Delivery: Control panel with external display

- Languages: English, French, German and Dutch

- Mounting of display: built-in / wall installation

- Size ext. display (WxHxD): 160x98x43mm

and PIN security to modify settings.

VEB-BASED

Specifications:

- Protection class: IP20

- Number of areas: 3

- Number of Infra's per area: 6

Temperature range: 2 / 40°C per 0,5°C.

continuous night or continuous off

- Control: on/off, high/low or modulating

- High/low control: Auto 1, 2 or 3K

Signaling of burner malfunction.

seperately (required per area)

- Infra on/off and high/low model.

- Infra Mono on/off and high/low model.

- Overtime timer: 0-180 min.

and temperatures.

- Power: 230Vac / 50Hz

- Embedded webserver

- Modbus TCP/IP

Can be used for:

– Infra HT

Accessories:

External black bulb sensor

Order code: 0629081 or 0629082

area

- Operating options: Auto, continuous day,

- Day-/night temperature monitoring with reading of

- Time switch with week program (7 switch blocks)

- Reset option to release a burner malfunction per

PIN security to modify for example switching times

- Temperature sensor: PT1000 (black bulb) to order

the actual room temperature on the display Automatic switching between summer/winter time.

blocks)

Reset option for unlocking a burner fault

- Overtime timer: 0-180 min

EB-BASED

Order code: 3003796

ging the settings.

Specifications:

adiustable

Power supply: 230Vac/50Hz

- Protection class: IP54

- Control: modulating

- Dimensions: 376 x 300 x 120mm (lxbxh)

- Temperature setting: 2 until 40°C per 0,5°C

day, continuous night or continuous off

- Automatic summer/winter time switching

- Operating mode selection: Automatic, continuous

- Day/night temperature monitoring with reading of

the current room temperature on the display

- Time switch with weekly program (7 switching

- Installation: surface / wall mounting

- Maximum number of Infra HEs: 8

The PinTherm Infra HE Connect is a digital tempera-

ture controller suitable for modulating control of one

or more Infra HEs based on the room temperature. With the possibility of PIN code protection for chan-

- Pin code protection to be able to change switching times and temperatures, among other things
- Languages: EN/FR/DE/NL
- Fuse: 10A
- ruse: IUA
- Modbus TCP/IP – Built-in web server
- Can be used for:

– Infra HE

Accessories:

External black bulb sensor
 Order code: 0629002

Optitherm+

Order code: 0629185

The OptiTherm+ is a digital clock thermostat with internal room sensor with which 1 or more air heaters (type GS+), up to a maximum of 8, can be controlled on the basis of the room temperature by means of a bus system.

Specifications:

- Push-button for switching the heating mode on and off.
- Push-button for switching the fan of the air heater(s) on and off.
- LED to indicate a malfunction along with
- notification on the display in the form of a failure code.
- Reset button to release a burner malfunction.
- An annual clock with 20 program blocks, clock program Mon-Fri, Tues-Fri, Sat-Son, daily or every day.
- Exceptional days, 20 program blocks,
- programmable by date, switching to daytime, eco or night-time temperature.
- 4 different operating modes (day, eco, night, frost).
- An overtime timer for switching to a different operating mode outside the switching times.
 Overtime timer freely adjustable from 15 min to 24 hours switching to daytime, eco or night-time temperature.
- Pin code protection to protect settings such as temperature, clock program, etc.
- Frost protection which automatically switches on
- the air heaters if the room temperature falls too far.

Can be used for:

- GS+ – G(C)+
- GSX

Accessories:

- External room sensor to be connected to the air heater. Order code 0629194
- Data cable 12,5 meter (3000600), 25 meter (3000601), 100 meter (3000602)

- Digital clock thermostat.
- Connection: bus system (2-wire).
- Dimensions: 129 x 129 x 20mm (lxwxh)
- Weight: 188 grams.
- Protection class: IP30.
- Ambient temperature: 0-40°C.
- Temperature setting: 0 to 40°C per 0.5°C can be set
- Time display: 24 hours
- Summer/winter: adjustable automatic/off
- Languages can be set to Dutch, English, German, French, Polish or Romanian
- External sensor: option of measuring the temperature per unit or on the basis of an average value.

Mark PinTherm Mistral

The PinTherm Mistral is a digital week clock room

the Mark Mistral MDX, but also an air/water heat

thermostat. The controller is suitable for controlling

pump in combination with the Mark Tanner MDA+

air heater. The controller is equipped with an on/

Order code: 0629110

CHRONOTHERM TOUCH (Modulating thermostat)

Destratificatieregeling RJ402 incl. PinTherm Connect*

Order code: 0629077

A programmable, modulating clock thermostat for modulating boilers, that control according to the OpenTherm®-communication protocol, as Mark EcoFlex, PowerFlex, MegaFlex and MaxiFlex. Operation is extremely easy through the touch screen.

Order code: 3002660

Specifications:

Power: 230Vac / 50Hz

Hysteresis: 2° - 35°C

- Output: Switch contact

Own consumption: < 0,5W

- Temperature range: 0° - 50°C

Temperature sensor: 10K S

Permissible ambient temperature: 0° - 50°C

Maximum permissible continuous current: 5A AC1

Automatic energy-saving system for continuous control of ECOFAN ceiling fans depending on the temperature difference. Incl. two room temperature sensors, 1. room sensor in the lounge area, 2. room sensor in the ceiling area.

Specifications:

- Display: large touch screen with backlight.
- The touch screen display can be locked in whole or in part.
- Cleaning ability for the touch screen without changing the settings.
- Clock program: week program.
- Adjustable up to 6 periods per day.
- Possibility to program multiple days simultaneously.
- Possibility to program a day off, holiday period or shiftwork.
- Overtime timer easy to program.
- Automatic switching between summer/winter.
- Temperature range -4,5...+32°C
- Control: modulating. Self-learning and optimizing.
- Weather-dependant control possible.
- Fitted with a permanent memory which stores all saved settings. Only temporary settings are not memorized.
- No battery power.

Can be used for:

- EcoFlex
- PowerFlex
- MegaFlex
- MaxiFlex

Can be used for: - Ecofan W (With EC and AC motor)

– Ecofan P

off contact and a 0-10 VDC output. The thermostat settings can be read and/or changed using Modbus or Ethernet. The thermostat can be linked to the BMS (building management system). Specifications:

- Power: 230Vac / 50Hz
- Clock: 24 hour clock with automatic summer/winter time switching
- Switching programs: 3 switching programs a day
- Switching differential: 0.1 3K
- Dimensions: 166 x 160 x 106mm (lxwxh)
- Weight: 880 grams
- Protection class: IP54
- Installation environment: Operational: -10°C until +60°C
- Relative air humidity: 0-90% not condensating
- Switch contact(s): Heating: 230Vac Others: 230Vac
- Temperature setting: 0 until 39°C per 1°C adjustable
- Overtime timer: adjustable 1, 2 or 3 hours (060, 120, 180)
- Calibration: adjustable from -3.5°C until +3.5°C
- Heating/cooling:
- Automatic changeover for heating or cooling. 0-10 VDC output for heating or cooling
- Languages: NL/EN/DE/FR/PL/RO/LT
- Fuse: 6A

- Mistral MDX – Tanner MDA+
- Accessories:
- External room temperature sensor Order code: 0629086

Room thermostat with speed control

Surface contact thermostat

Frost protection thermostat

Programmable room thermostat for speed control of

Power supply: 230V/50Hz, 230V/60Hz or 24V/60Hz

- Room temperature adjustable from 0...40°C

- Transport / storage temperature: -10...+50°C

- Dimensions: 132 x 87 x 23,6 mm (wxhxd)

- Humidity limits: 20...80% RH (not condensing)

Order code: 5997350

Specifications:

- Protection class: IP30.

– Weight: 265 gram

- Wall mounting

- Plastic housing in RAL 9003

appliances with an EC motor.

Order code: 0629180

Thermostat to start a water-supplied air heater, for example, when the water is at the required temperature.

Specifications:

- Temperature adjustable from 20...90°C per 5°C.
- Protection class IP40.
- Voltage free exchange contact.
- Switching power 24...230V~, 16(4)A, min. 150mA at 24V~.
- Ambient temperature -35...+65°C.
- Maximum sensor temperature 110°C.
- Dimensions 38 x 48 x 103mm.
- Process connection using the 220mm metal butterfly clips supplied.

Order code: 0629125

Thermostat to protect against the danger of frost. Equipped with a bulb sensor which is active over the entire length.

Specifications:

- Adjustment range from -10...+12°C.
- Switch differential 1K.
- Protection class IP40.
- Voltage free exchange contact.
- Switching power 24...230V~, 15(8)A, min. 150mA at 24V~.
- Ambient temperature -9...+55°C.
- Dimensions 105 x 112 x 55mm.
- Colour grey (RAL 7035).
- Copper capillary.
- Capillary filled with Solkane R134a.
- Capillary active across the entire length.
- Capillary length 1.8m.

Can be used for: – Tanner CLA

– Fan Coil

Can be used for:

- Tanner MDA
- Tanner MDC
- Tanner MBA
- 5-position controller 230V
- High/low/off controller

- Tanner MDA
- Tanner MDC
- 5-position controller 230V
- High/low/off controller

Digital time clock

OJ user interface with touch panel

CO2 sensor

Order code: 0633030

Digital time switch to switch installations on and off or to control temperature reductions for the night or over the weekend.

Specifications:

- Simple to use.
- 8 on/off cycles with 13 different day blocks, programmable by day or block of days.
- 4 different operating positions: manually on constantly, manually off constantly, adjustable countdown timer, automatic operation in accordance with timer switching programme.
- Integrated countdown timer.
- Suitable for wall installation or installation on DIN rail.
- Manual on/off.
- Rapid summer/winter time switching.
- Power reserve 72 hours.
- Dimensions 78.8 x 106 x 56mm.
- Protection degree IP20 in accordance with EN 60 529.
- Operating voltage AC 230V -15...10%, 50/60Hz, 3.0VA.
- Relay contact Q AC24...240V, DC 24V, max. 6(3)A.

Order code: 0631374

User friendly control panel for commissioning and setting the daily operation of the Mark Airstream. The control panel is very easy to use, thanks to the logical menu's, easy navigation and recognizable symbols.

Specifications:

- 3.5" color Touchscreen.
- Easy navigation through grafic interface.
- Connection and installation through Modbus.
- Mounting on the Airstream or wall is possible.
- QuickPlugTM installation.
- All system parameters are visible to each user.
- Only authorised users can change the system parameters. Access to the control system can be granted for 3 different levels:
- User
- Installer
- Service
- Voltage24 V DC, ±15%
- Consumed current max 37,5 mA
- Modbus RS-485, 115 kBaud
- Modbus connection 2 x RJ12 6/6
- Max. cable length 50 m
- (in low EMC environment)
- Ambient temperature -10°C /+40°C
- Air humidity 0-95% (not condensing)
- Dimensions 80 x 121 x 42
- Modbus cable MPFK6S
- Density class IP21
- Weight 190 g

Can be used for: - Airstream

Order code: 0629165 (muurmontage)

Sensor that detects CO2 content in the air. The detection range of this CO2 sensor is calibrated for standard applications such as monitoring of residential rooms or conference rooms.

Specifications:

- Power supply 24 V AC/DC.
- Several measurement ranges possible:
 0...2000ppm, 0...5000 ppm, 0...10000ppm.
 Output signal 0...10V.
- Measuring accuracy: +/- 70ppm plus 5% of measured value.
- Pressure dependence: +/- 1.6% / kPa.
- Warm-up time: approximately 1 hour.
- Ambient temperature: 0...50°C
- Reaction time: approximately 1 minute.
- Electrical connection: 0,14 1,5 mm2.
- Plastic enclosure (RAL 9010).
- Dimensions 98 x 106 x 32 mm.

Can be used for: - Airstream

3-position selector HMI-EC Controller Speed controller **MDC 230V** Order code: 0699150 Order code: 0631175 Order code: 0616040 Selector to switch the fan on the MDC 230V to 3 Controller P140 for max. 9x Ecofan P140 ceiling fans. The HMI-EC controller is an electronic controller with an LCD screen especially for the range of EASYAIR air positions. curtains. The controller manages the performance of an air curtain by means of fan revolutions and control of the air heating capacity. The HMI-EC is equipped with a Modbus RTU port that supports communication with BMS systems. The controller is suitable for all types of EASYAIR air curtains. Specifications: Specifications: - Power supply: 1*90-240 VAC 50/60 Hz – On/off button – Type of temperature sensor NTC, 10 k Ω @ 25 °C - Selector to switch the fan to 10 different positions, - Temperature setting: 0 °C...50 °C from low to high. - Precision temperature measurement: ±0.5 °C – Power supply: 230/1 Ph/50Hz - Relative humidity: 10-90% with no condensation – Max amperage: 3 A - Protection class: IP20 – Up to max. 9x Ecofan P ceiling fans - Dimensions: 86 x 86 x 48 mm – Up to max. 2x Ecofan W42 / 1x W82 – Weight: 150 gr – Ambient temperature: 0-40 °C - Dimensions surface mounting: 108x108x60 (lxwxh) - Dimensions flush mounting: 108x108x55 (lxwxh) Can be used for: Can be used for: Can be used for: - Tanner MDC (230V) – Ecofan P140 - Easyair - In combination with MDC 230V motor control – Ecofan W42/ W82 Order code: 3003500

WEB MODULE

INTERFACE+

Order code: 0629187 (Temporarily unavailable)

Module for remote control and reading out an Optitherm+ thermostat by means of an app for mobile phone and tablet. The Optitherm+ is suitable for GS+, GSX/GC+ air heaters.

A WiFi bridge (0629186) can be added to create a wireless connection.

You need a separate Optitherm+ and Web module for each unit that you want to read out via the app. When using one Web module, only the fault messages and history of the first unit can be read via the app. It is possible to control multiple unit with one Web module via the app.

Order code: 3002866

ile	An Interface+ can be used in two ways.
GS+/	1. Power control: An externally supplied 0-10VDC signal is converted into a power control of the burner. With an Interface+ module, one G(S)+ can be controlled.
le for Vhen	Potential free entry: Reset Potential free exits: Malfunction Operation
p. b	2. Connection BMS (building management system): Settings, actual temperatures and fault codes can be read using Modbus. Settings of the OptiTherm+ can be modified.
	 Specifications: Wiring: Shielded data cable (between Interface+ and air heater) Dimensions: 109x154x49 mm (lxwxh) Weight: 498 grams Degree of protection: IP20 Ambient temperature: 0-40°C
	Can be used for: - GS+ - G(C)+ - GSX

- Optitherm+ (0629185)
- GS+
- GSX
- GC+

Pressure sensor

Potentiometer with on/off contact

To variable control the MDV Blue EC fan through a

Order code: 0631390

0-10V signal.

Specifications:

- Resistance: 10kOhm (-20% / +20%)

- Protection class: IP54 built-on, IP44 built-in

- Contact load: 1A 230Vac

- Weight: 145 grams

- Housing: Plastic ASA

- Color: RAL 9010

- Ambient temperature: 35°C

- Mounting: built-in or built-on

– Type: 10K

Multi-functional controller 230V with integrated display

Order code: 3004561 (230V)

3004560 (400V)

To control an EC-fan based on pressure.

- Measuring range: 0-2500Pa
- Accuracy: 0,5% * measured value ±2,5Pa
- Maximum pressure: 20kPA
- Dimensions: 91x75x38mm (wxhxd)
- Ambient temperature:
 -20 / +40°C (operation)
- 0/+50°C (display)
- Humidity environment: 10-95 %RH
- Protection class: IP54
- Weight: 110 grams
- Output: 0-10Vdc, 2-10Vdc, 0-20mA, 4-20mA"

Can be used for:

– MDV Blue EC

Can be used for:

- MDV Blue EC
- Tanner MDA EC
- LDA Swirl
- Ecofan W EC

Order code: 0629400

Controller to control MDV Blue fans on the basis of temperature and CO2, constant flow, constant pressure, constant humidity, constant CO2, CO2 and temperature.

Specifications:

- Power supply: 230Vac ±10%
- Protection class: IP40
- Dimensions (wxhxd): 87x87x42mm
- Modbus: RS485 connection (slave)
- Temperature range: 0-50°C
- Languages: English, German, Danish and Swedish
- Easy to operate
- Contrast adjustable
- Menu password protection is possible
- Output: 0-10V
- Relay contact: NO 250Vac 5.0A-AC1
- With overtime timer adjustable 0-240min
- Suitable to connect a presence sensor, temperature sensor, CO2 sensor, humidity sensor and pressure sensor.
- Equipped with a switch with weekly program up to 10 blocks per day
- Weight: 160 grams

Can be used for:

MDV Blue AC
MDV Blue EC

304

Can be used for:

- MDV Blue AC

– MDV Blue EC

Control Equipment

Room presence sensor for multi-functional controller

Order code: 0629414

Specifications:

- Distance: 5 meter

- Weight: 74 grams

- Protection class: IP20

– Angle: 90°

- Dimensions (wxhxd): 85x85x33mm

- Switch-off delay: 15 sec. not adjustable

- The sensor measures the temperature changes to a

limited distance from the front of the sensor.

- Temperature range: +10 / +30°C

PIR presence sensor for mounting on the wall.

Room temperature sensor ip20 for the multi-functional controller

Temperature sensor IP54 for the multi-functional controller

Order code: 0629410

22K ohm NTC room temperature sensor for wall mounting in IP20 housing.

Specifications:

- Dimensions (wxhxd): 85x85x33mm
- Temperature range: -20 / +40°C
- Accuracy: ±1°C
- Protection class: IP20, humid rooms area 3
- Sensor type: NTC 22K 2%
- Mounting: Wall mounting
- Weight: 88 grams

Can be used for:

- MDV Blue AC

- MDV Blue EC

Specifications:

Order code: 0629411

IP54 housing.

- Dimensions (wxhxd): 80x80x55mm
- Temperature range: -40 / +60°C
- Accuracy: 2°C full range
- Protection class: IP54
- Sensor type: NTC 22K 2%
- Mounting: Wall mounting
- Weight: 152 grams
- Storage temperature: -40 / +80°C

Can be used for: – MDV Blue AC

– MDV Blue EC

22K ohm NTC external room temperature sensor in

Room co2 sensor for the multi-functional controller

Room humidity sensor for the

multi-functional controller

Order code: 0629412

Order code: 0629413

Order code: 3004506

To measure the CO2 in a room. To measure the temperature and/or the relative Pressure sensor to monitor and control based on humidity in a room. pressure difference or flow. Specifications: Specifications: Specifications: - Dimensions (wxhxd): 85x85x33mm - Dimensions (wxhxd): 85x85x33mm - Measuring range: 0-2500Pa - Measuring range: 0-2000 ppm - Room temperature: 0 / +60°C - Accuracy: -20/+40°C ±3 % (> 350 Pa), ±10 Pa - Accuracy: ±50ppm per 500ppm Accuracy temp.: 0-10V = 0-50°C (max5mA) (< 350 Pa) - Protection class: IP21 Accuracy temp.: ±1°C - Maximum pressure: 20kPA - Mounting: Wall mounting - Humidity output: 0-10V = 0-100%RH (max 5mA) - Dimensions: 91x75x36mm (wxhxd) - Weight: 94 grams - Accuracy humidity: ±5% RH (10-90% RH) - Room temperature: - Operating temperature: +10 / +60°C - Protection class: IP20, humid rooms area 3 -20 / +40°C (operation) - Output: proportional 0-10V 15mA - Sensor type: NTC 22K 2% 0 / +50°C (display) - Mounting type: Wall mounting Protection class: IP54 - Weight: 88 grams - Weight: 110g - Output: 0-10Vdc, 2-10Vdc, 0-20mA, 4-20mA - K-factor: 0.1 to 9999 m3/h can be modified to I/s. - Supply 24Vac ±15%, 50/60 Hz, 3.5-28Vdc - Setting pressure range: -50/+50 Pa, 0/100 Pa, 0/150 Pa, 0/300Pa, 0/500 Pa, 0/1000 Pa, 0/1600 Pa, 0/2500 Pa - Setting flow range: 100 m3/h, 300 m3/h, 500 m3/h, 1000 m3/h, 3000 m3/h, 5000 m3/h, 9999 m3/h, 30.00 m3/h x 1000, 50.00 m3/h x 1000, 99.99 m3/h x 1000 Can be used for: Can be used for: Can be used for: - MDV Blue AC – MDV Blue AC – MDV Blue EC – MDV Blue EC - MDV Blue EC – Airstream

Control Equipment

W9 G+	С10	C12

Switchbox for modulating regulation of 1 or more modulating air heaters based on room temperature.	Switchbox for controlling a Calflo with on/off fan based on room temperature with minimum inlet temperature restriction.	Switchbox for controlling a Calflo with on/off fan based on room temperature with minimum inlet temperature restriction.
 Specifications: Steel box with cylinder lock One 230V power supply group per device with a switchbox for several devices. Digital time switch with weekly programme. Day and night temperature regulator. Holiday switch to operate devices at the night-time temperature over longer periods. Overtime timer adjustable from midnight to 6.0 a.m. Selector per device for "heat / off / ventilate". Illuminated reset button per device to indicate and reset a burner trip A room temperature sensor supplied separately. 	 Specifications: Steel box with cylinder lock Regulator for the room temperature and minimum inlet temperature restriction using 2-10Vdc control signal. Selector for heat/off/ventilate. Failure lamps for: Burner failure Intake air failure Burner fan thermally off Maximum failure Dirty filter Operating lamps for: Burner in operation Release of control Reset button to reset a burner failure. Voltage free contact to operate extraction (24Vmax). Voltage free contact (supply to third parties) to check whether extraction is operating. A room temperature sensor supplied separately for the minimum inlet temperature restiction. 	 Specifications: Steel box with cylinder lock Regulator for the room temperature and minimum inlet temperature restriction using 2-10Vdc control signal. Selector for heat / off / ventilate. Digital time switch with weekly programme. Holiday switch to allow devices to operate at the night-time temperature over longer periods. Overtime timer adjustable from midnight to 6.00 a.m. Failure lamps for: Burner failure Intake air failure Burner fan thermally off Maximum/gas pressure failure Dirty filter failure Burner on Burner in operation Supply fan on Reset button to reset a burner failure. Voltage free contact (supply to third parties) to check whether extraction is operating. A room temperature sensor supplied separately. A duct temperature sensor supplied separately for the minimum inlet temperature restiction.
Can be used for: - GS+ - GC+	Can be used for: – Calfo on/off model	Can be used for: – Calfo on/off model

C20

Order code: 3004241

Switchbox for controlling a Calflo with high/low fan based on room temperature with minimum inlet temperature restriction.

Specifications:

- Steel box with cylinder lock
- Regulator for the room temperature and minimum inlet temperature restriction using 2-10Vdc control signal.
- Selector for heat / off / ventilate.
- High/low selector supply fan selector.
- Failure lamps for:
 - Burner failure
 - Intake air failure
 - Burner fan thermally off
 - Maximum/gas pressure failure
 - Dirty filter
- Operating lamps for:
 - Burner on
 - Burner in operation
 - Supply fan low
 - Supply fan high
 - Release control
- Reset button to reset a burner failure.
 Voltage free contact to start extraction

(24V max).

- Voltage free contact to switch extraction to high (24V max).
- Voltage free contact (supply to third parties) to check whether extraction is operating at low.
- Voltage free contact (supply to third parties) to
- check whether extraction is operating at high.
- A room temperature sensor supplied separately.
- A duct temperature sensor supplied separately for
- the minimum inlet temperature restiction.

Can be used for:

- Calflo high/low model

C22

SLR on/off

Order code: 3004243

Switchbox for controlling a Calflo with high/low fan based on room temperature with minimum inlet temperature restriction. With day/night temperature monitoring.

Specifications:

- Steel box with cylinder lock.
- Regulator for the room temperature and minimum inlet temperature restriction using
- 2-10Vdc control signal.
- Selector for heat / off / ventilate.
- High/low selector supply fan selector.
- Digital time switch with weekly programme.
- A holiday switch to allow the device to be operated
- at the night-time temperature over longer periods.
- A digital timer (0-6 hours) to switch to the daytime
- mode temporarily outside the clock programme.
- Failure lamps to indicate:
 - Burner failure
 - Intake air failure
 - Burner fan thermally off
 - Maximum failure
 - Dirty filter
- Operating lamps to indicate:
 - Burner on
 - Burner in operation
 - Supply fan low
 - Supply fan high
 - Release control
- Reset button to reset a burner failure.
- Voltage free contact to start extraction
- (24V max).
- Voltage free contact to switch extraction to high (24V max).
- Voltage free contact (supply to third parties) to
- check whether extraction is operating at low.
- Voltage free contact (supply to third parties) to
- check whether extraction is operating at high.
- A room temperature sensor supplied separately.
- A duct temperature sensor supplied separately for
- the minimum inlet temperature restiction.

Can be used for:

– Calflo high/low model

Order code:

Switchbox for turning 1 or more Infra Lines on/off based on room temperature, with day/night temperature setting.

Specifications:

- Steel box with cylinder lock.
- 230V supply group per device.
- Digital time switch with weekly programme.
- Day and night temperature control.
- Holiday switch to allow devices to operate at the night-time temperature over longer periods.
- Overtime timer from 0-6 hours.
- Infra Line on/off selector per device.
- Illuminated reset button per device to indicate and reset a burner trip.
- A black bulb temperature sensor supplied separately.

Can be used for:

– Infra Line on/off model

Control Equipment

MDC 230V motor control up to 3.0kW	MDC 400V motor control
Order code: 3003500	Order code: 3003502 (1,1 kW) 3003503 (1,5 kW) 3003504 (2,2 kW) 3003505 (3,0 kW)
To be able to switch the 1~230V fan on the MDC. Plus the option to connect an external room thermostat and a 3-position selector for the fan.	To control the 3~400V fan on the MDC. Plus the opti- on to connect an external room thermostat.
Specifications: - Steel box Solenoid switch to control the fan Connecting terminals for external room thermostat Connecting terminals for external 3-position selector.	 Specifications: Steel box. Solenoid switch to control the fan. Connecting terminals for an external room thermostat.
Can be used for: – Tanner MDC (230V)	Can be used for: – Tanner MDC (400V)
